## **TempSure Post- Treatment Instructions**

Studies indicate the possible side effects of TempSure™ RF System are usually treatment-site related and include mild discomfort during the procedure localized within the treatment area.

Mild swelling and redness may occur which typically goes away within 2 to 24 hours.

Diligent protection from sun exposure and application of sunscreen for two to three weeks after treatment will minimize pigmentation changes.

A regimen to moisturize and soothe skin for one week post-treatment is recommended.
